Select the mail tab

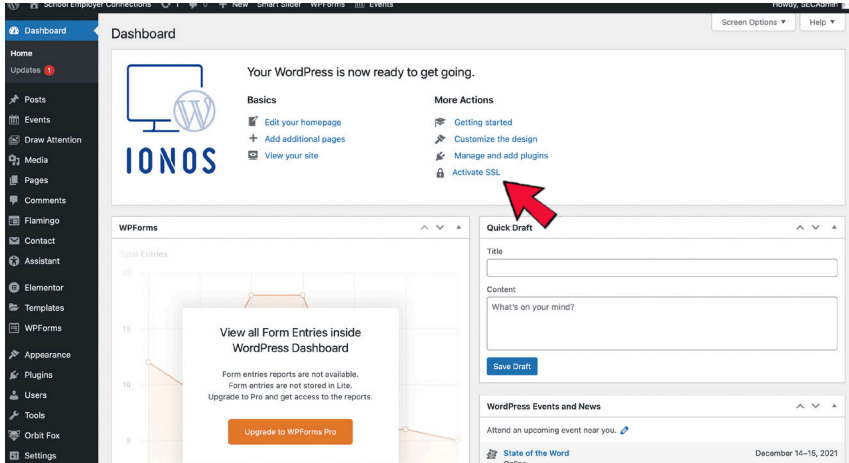

In the email template customise the 'to' section by writing the desired email address of the person/account that you wish to receive the data
Save at bottom of page

SSL Security Certificate

This can't be added with our temporary domain however once the domain has switched over this can be enabled with ease.

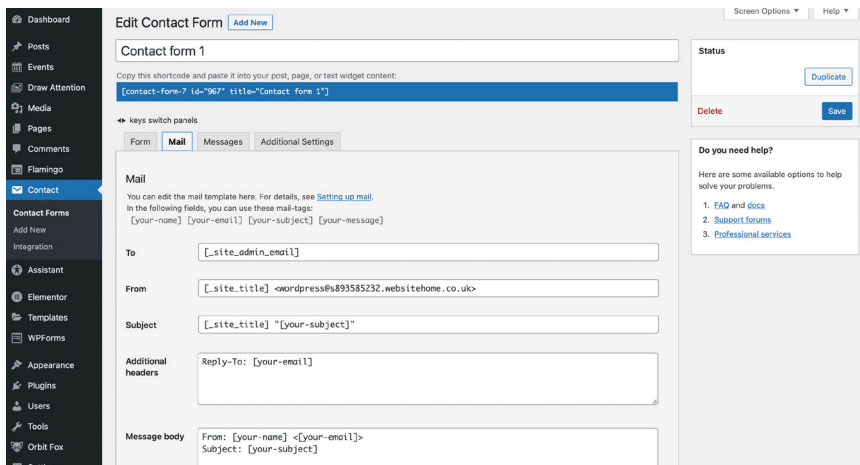

Go to the Admin dashboard and select Activate SSL

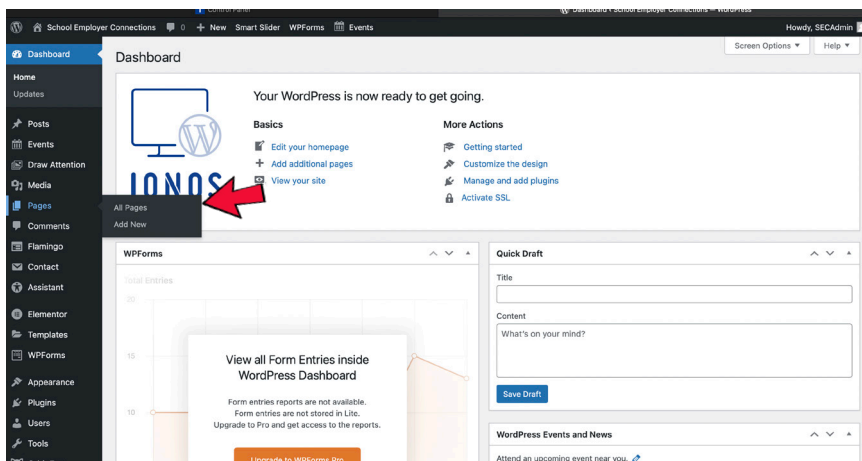

Ionos will have step by step instructions on how to enable this feature.

How to view from a Phone perspective

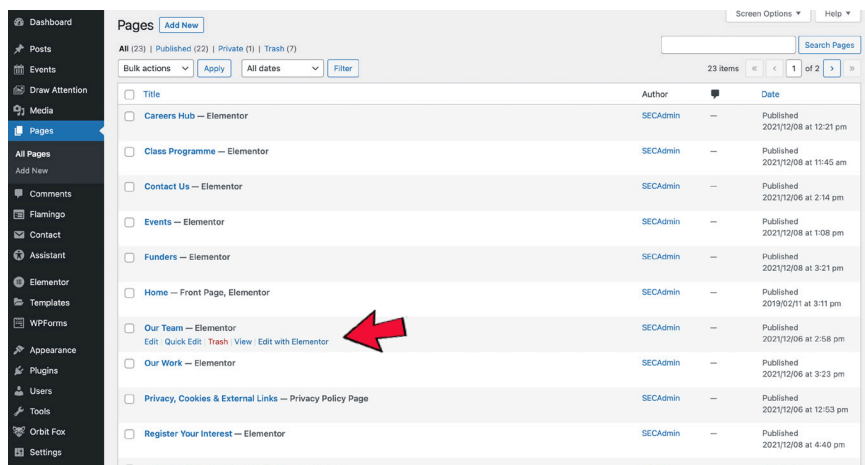

Go to the dashboard

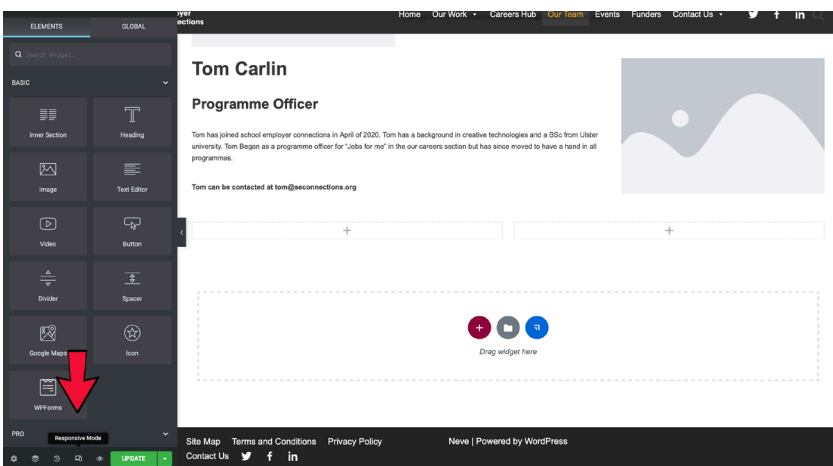

Using the left menu navigate to the all pages tab

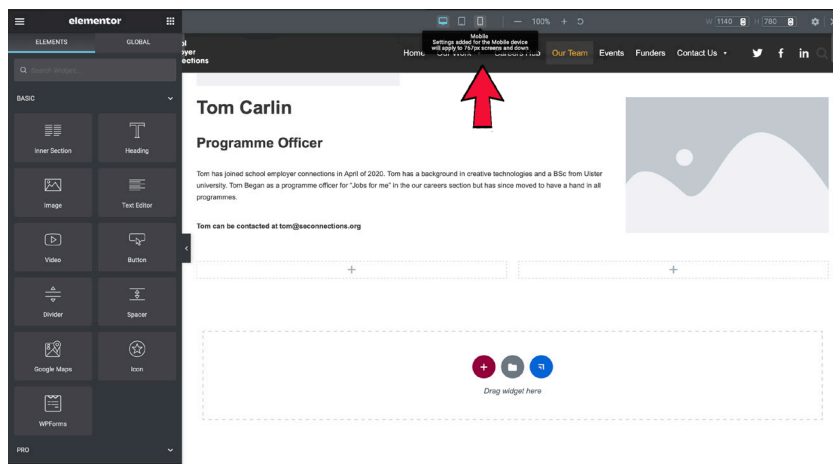

Select edit with elementor on the desired page you wish to view

From here select the responsive mode button

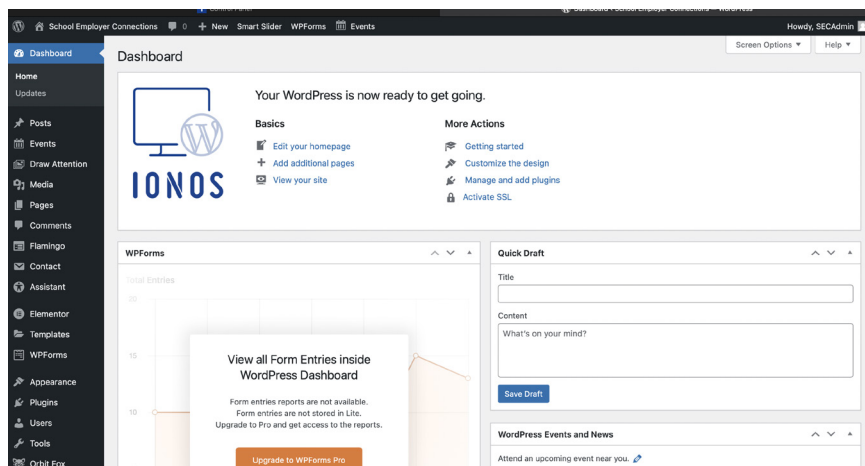

Finally click the mobile phone icon to enable viewing in this setting, this will be fully editable .

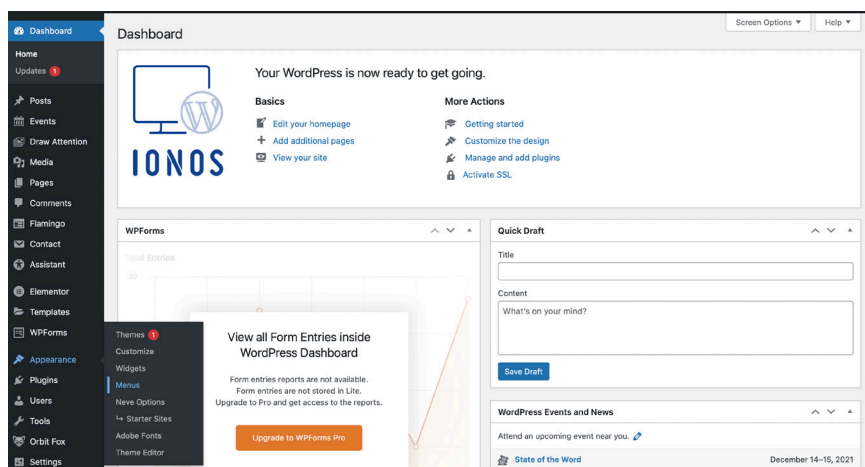

How to add a page to the navigation Menu

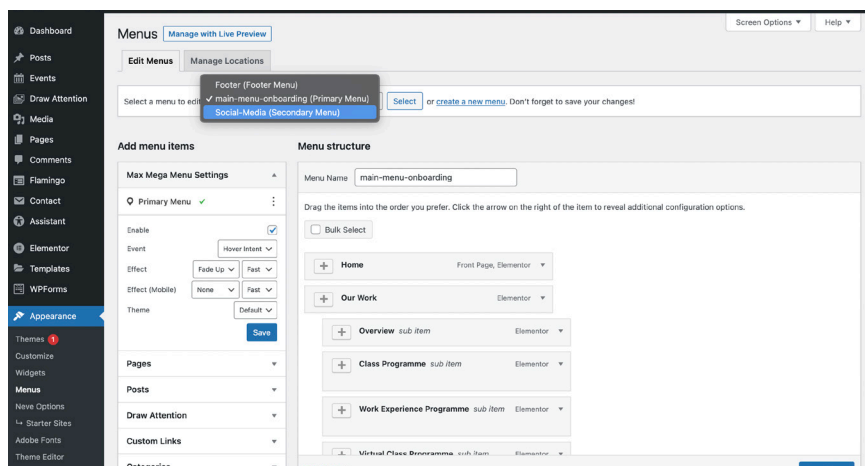

Go to the admin dashboard

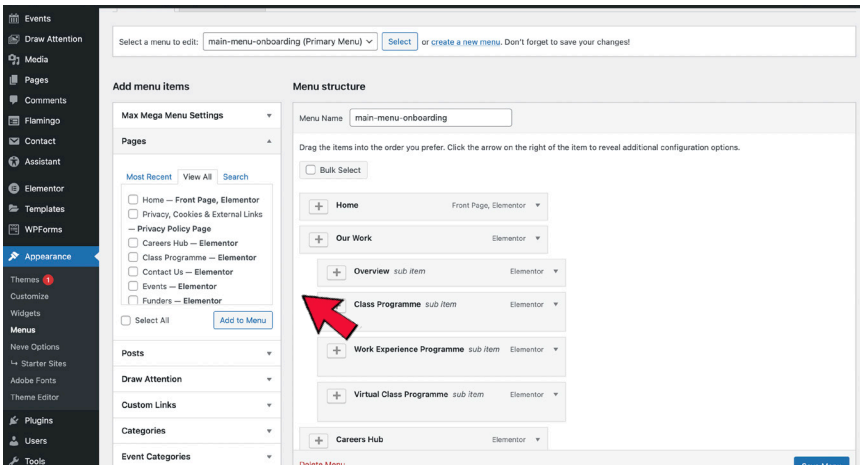

In the left menu select Appearance > Menu

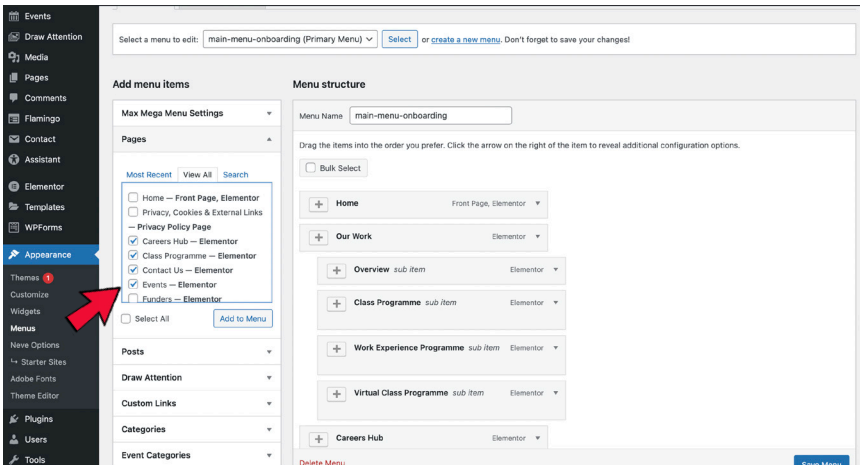

Select the menu you wish to add to or edit

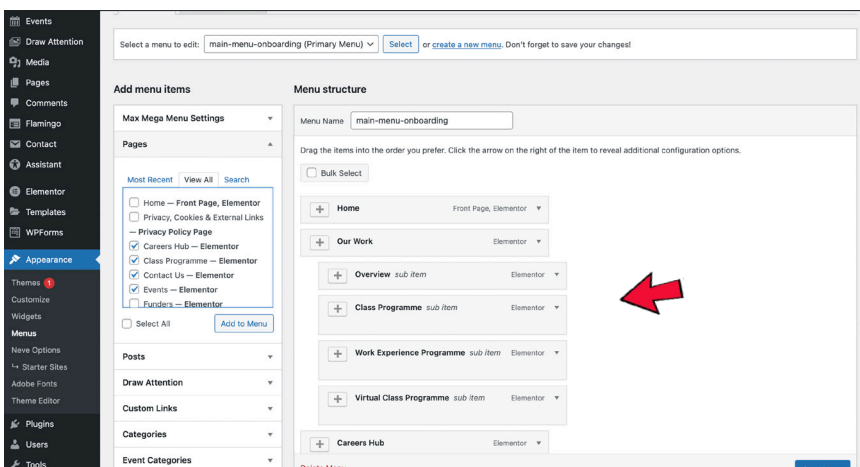

Navigate to the left menu and select pages > View all

Tick the boxes of the pages you desire to add to your menu and select save

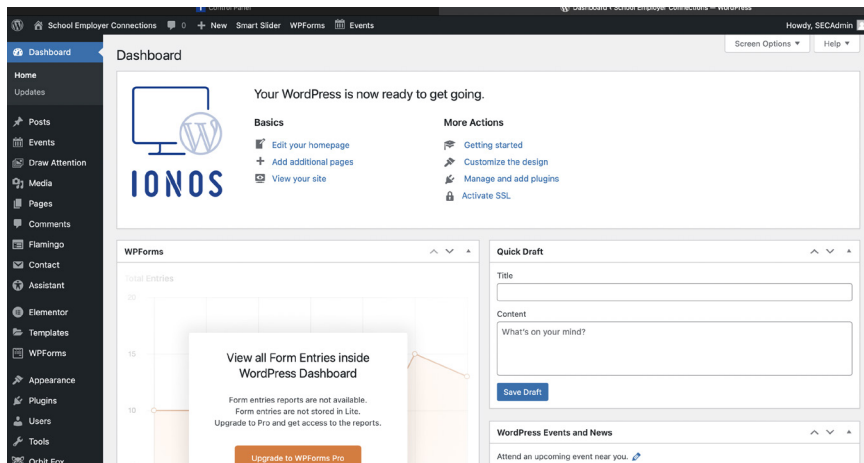

To make the page a sub menu arrange the page slightly to the right as shown in the screenshot

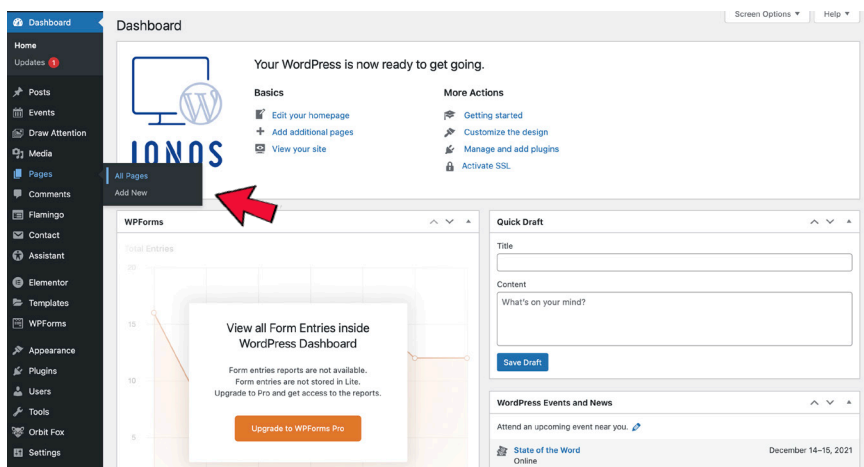

How to customise the pages on the interactive map

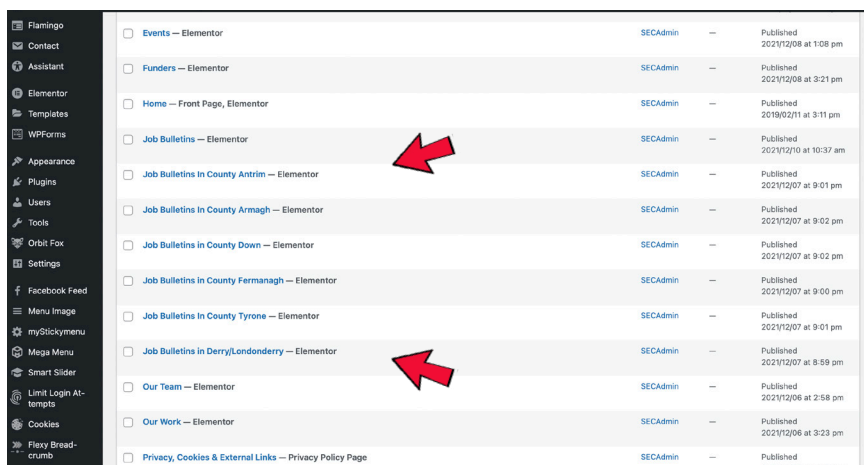

Go to the admin dashboard

Select Pages > All pages

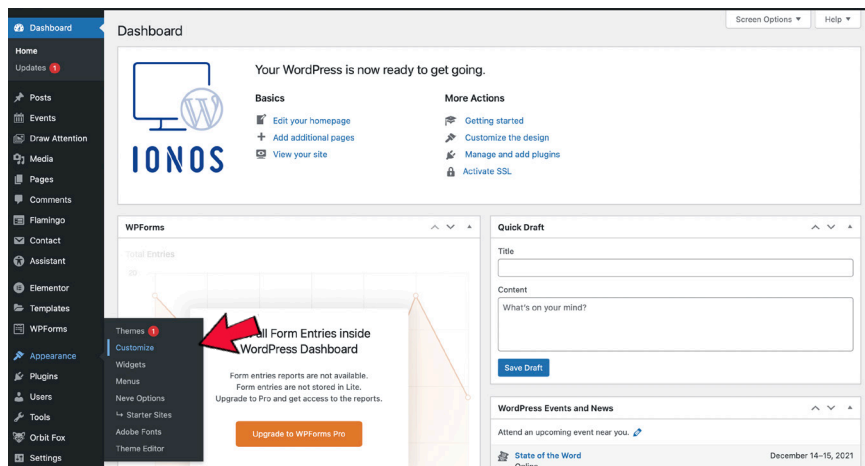

Look for the pages names Job Bulletins "Location" and select edit with elementor

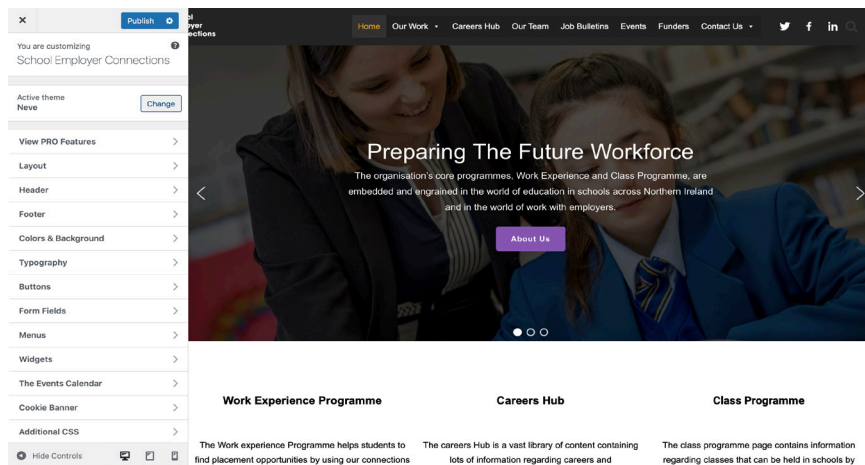

General - When editing any pages always use elementor as if the normal wordpress editor is used it can break the page as they don't intergrate

To undergo general customisation

Go to the dashboard and select appearance > Customise

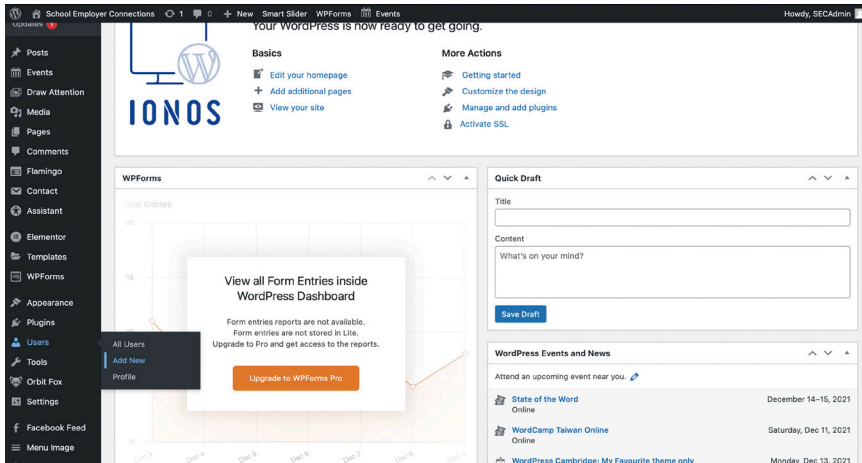

Once this is clicked it will take you to a view of the website home page with a menu along the left side.

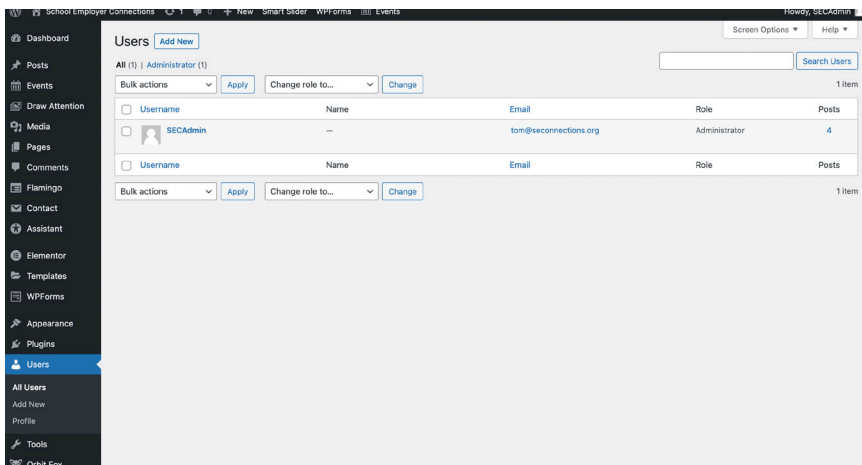

General customisation can be done here and if a specific part of the website is needing edited, you can hold shift and click this element and the menu on the left will change to show editing capabilities for this element.

How to add other users/admins to the website

Start from the dashboard and select Users > All Users

Select "Add new" at the top of the page to add a new user

Enter the new user's details and this will allow them to login
